

# DIVULGATION 3

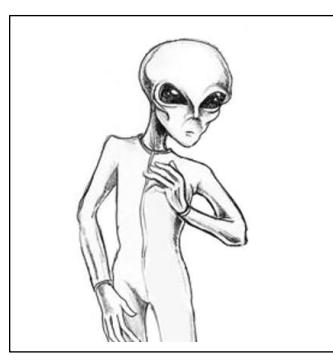

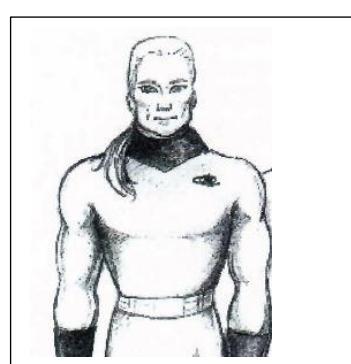

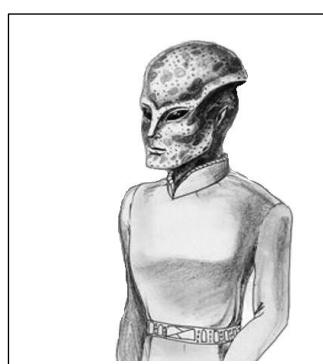

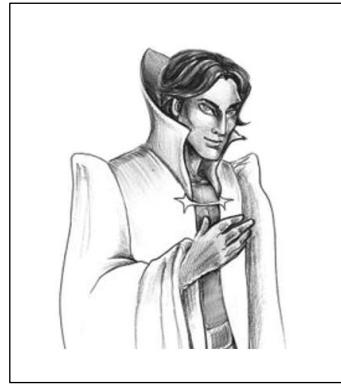

## LES RACES

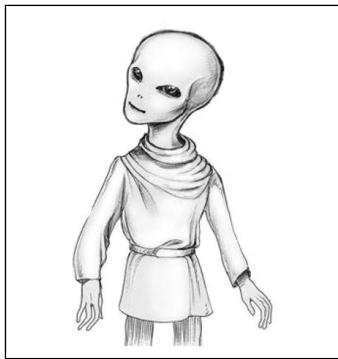

La Terre est un joyau dans la Galaxie et elle est convoitée par de nombreuses races extraterrestres. Depuis que la Terre est habitable, plus de 500 races extraterrestres sont venues la visiter. Plusieurs de ces races s'y ont installé en permanence, d'autres n'étaient que de passage.

Dans la présente divulgation, je vais présenter 102 races différentes, sur une possibilité de 500 races, habitants dans notre Univers. Les races présentées ci-dessous ne sont pas toutes venues sur Terre, mais sont connues de la Fédération Galactique.

Plusieurs des races qui ont fréquentées la Terre, ont créé des hybrides à différentes fins, la principale raison, c'est qu'ils veulent perpétuer leur race qui est sur le déclin. Plusieurs de ces hybrides vivent sur Terre sous une forme humaine.
